Dear Dr. Chabert:

We had previously written to you our letters twice, on December 11, 2001 and January 24, 2002, thereby asking you to return to us the attached declaration and assignment quickly after you have filled your signature in these documents. However, we have not received those signed documents or heard anything related to this pending matter as yet, from you.

Please keep in mind that if we cannot obtain your signed documents, the patent application filed in U.S. may become void with the huge financial loss of the applicant company, as well as at the sacrifice of the effort of the other co-inventors, let alone your effort. In the absence of your signed documents, the application is now in such a risky situation.

Accordingly, we sincerely hope that you will return to us your signed declaration and assignment as soon as possible. We herewith resend a blank form of the declaration and assignment, attached by the specification, claims and drawing.

Very truly yours,

The Patent Corporation Body
